INTRODUCTION

Zero infoSys (zero information system) started its journey in 2013 with the view in mind to adopt the latest information technology for Bangladesh and beyond. The chronology of Zero InfoSys in Bangladesh is described briefly as below

Journey Begins (2013)

From beginning **Zero InfoSys** is providing various development and management services in various countries around the world. Countries are India, Indonesia, Ghana, Germany, Spain, Turkey, Italy, Mauritius, Senegal, South Africa and of course Bangladesh. Through its international partners by its experience development and support team.

Our mission is to deliver great Web Application services and results through our people - to achieve leadership in our chosen ICT markets through the constant pursuit, in association with our clients and partners, of superior levels of Application, service, efficiency and quality. The total dedication of our staff to the achievement of excellence is the major factor in our success.

Nature of Business:

The objectives of the Company are to carry on the business of web Application service, we provide end to end managed business and technology solutions for immediate business growth.

Zero Info Sys continues to invest in new technologies, processes, and people, which can help its customers succeeds. From generating novel concepts through Zero Info Sys in Bangladesh R&D and alliances, to drawing on the expertise of key partners, it keeps clients operating at the very edge of technological possibility.

Beside this Zero Info Sys also provides quality web, software and mobile development solution to local mobile operators, financial Institutes and various small and medium size enterprises.

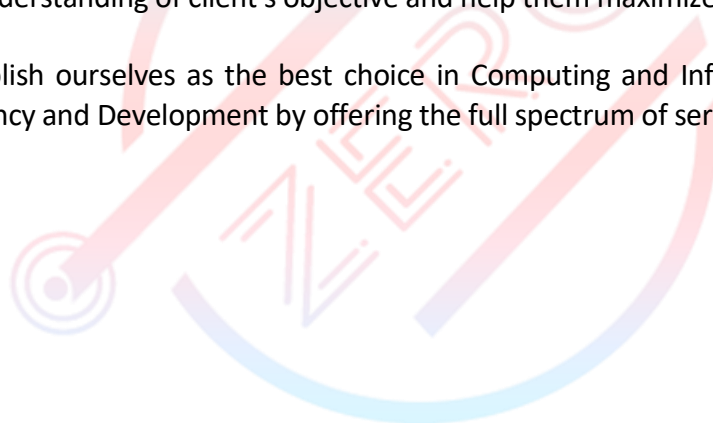

Zero infoSys : YOUR AUTOMATION PARTNER

The company has been formed by a group of IT professionals having vivid experience and wide exposure in Information Technology. People involved here are young qualified business graduates and qualified engineers from the renowned universities across the country.

The resource personnel working in the company have been consistently providing reliable support services and consultancy to a wide variety of corporate houses either in the capacity of executive or as business partner or consultant. Bottom line of the company philosophy is building a long-term business partnership with its clients where interpersonal relationship, reliability, assured quality and target oriented modern technology are the major building blocks.

It is a company where IT professionals from both technical and functional field group together with an objective of providing appropriate business solutions. It realizes the importance of functional knowledge and its impact in developing business solutions. We constantly strive to be a leading technology firm with profound business and functional knowledge. The key to the company's success is the maintenance of a close working relationship with the clients through ensuring the best possible solutions to their needs; to establish and maintain a thorough knowledge and understanding of client's objective and help them maximize the benefits.

We want to establish ourselves as the best choice in Computing and Information Technology Services, Consultancy and Development by offering the full spectrum of services.

OUR MISSION & VISION

Our Mission is to achieve the reputation of a quality, high standard & reliable solution & service Provider Company in the ICT industry.

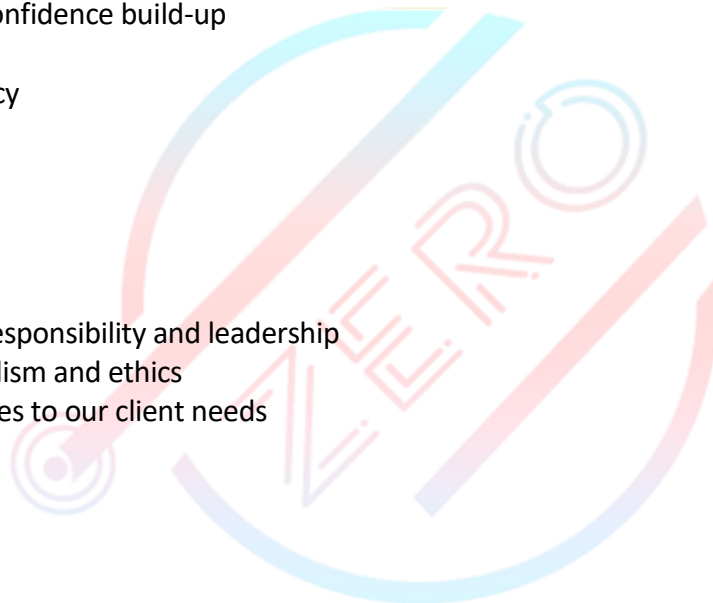

Our Vision is to achieve 100% customer satisfaction by delivering quality products and services at an affordable cost. Our forward vision is to strive to become an entity in technology based corporate solutions, capable of demanding unconditional response from the targeted niche. We also believe that for our scope of improvisation – sky is the limit and we are always ready to take our achievements to the next level. We are growing and would always like to remain on the growing streak.

Our keys for development:

- ❖ Desire for Excellence
- ❖ Trust and confidence build-up
- ❖ Innovation
- ❖ Transparency
- ❖ Teamwork

We believe in

- ❖ Motivation
